## “Refer A Friend” Share Link (Global)

There is a link in the website header that allows users to share the site with friends. This is not an affiliate link or part of the affiliate program—it’s simply a generic share link created from the homepage URL. Users can share it via copy link, email, or social media. You will not earn commissions from sharing this link. Refer a friend is available to all users that allows them to receive additional discounts for referring friends.
